PHOTOPLAY ATTRACTIONS

Alhambra.

Today and for the rest of the week Jack Pickford will be seen at the Alhambra in "Huck and Tom," a continuation of the adventures of Tom Sawyer and his chum, Huckleberry Finn, as narrated by Mark Twain. The spirit of fun-loving American boyhood permeates the story. Motion picture patrons who took great enjoyment in Mr. Pickford's portrayal of Tom in "Huck and Tom" and added delight in other adventures of Twain's popular hero, as depicted by this screen star. The supporting cast includes Edythe Chapman, Robert Gordon, Clara Horton, Allen Munn and George Backstrom. On the program also is "It Pays to Smuggle," the latest of Mack Bennett's farces, which, as the title suggests, has to do with the laughable phase of health fads.

Colonial.

The Colonial's attraction for Thursday, Friday and Saturday will be "His Robe of Honor," featuring Henry B. Walthall, in his first Parole production, pictured from the story by that name by Ethel and James Dorrance. Mary Chase is the principal in his support, in the character of Roxana Frisbee, an adventuress. Mr. Walthall is seen as Julius Randolph, a disreputable lawyer, who becomes an upright judge under the refining influence of a young woman. The picture is said to be full of surprising revelations as the light of truth is turned on some of the sinister happenings in the legal world. A comedy and the latest Parole picture, which will complete the picture program, and besides there will be the Hughes Girls, a heavy of pretty singers and instrumentalists. The five musical duets offer a part of the entertainment.

Isis.

At the Isis tomorrow and for the rest of the week Mary Miles Minter in "The Powers That Prevail," will be the attraction. Miss Minter takes the role of a girl newspaper reporter whose adventures are decidedly more interesting than her stories which get into newspaper print. An added feature will be Alice Howell, comedienne, playing in "The Matter With Father," a comedy starring Talmadge as a father for today in "The Shuttle."

Keynotes.

In "The Petticoat Pilot," which will be on the screen at the Keynotes today and tomorrow, the adventures of a winsome young woman from her plighted days to young womanhood will be portrayed by Miss Vivian Martin. "The Petticoat Pilot," as previously announced, is a simple love story of the

RIGOROUS COURSES FOR CAMP SHELBY DOCTORS

MODERN WARFARE REQUIRES PHYSICAL PERFECTION.

MAJOR GREEN ON STAFF

(By W. H. Blodgett, Staff Correspondent of The Indianapolis News.)
HATTIESBURG, Miss., April 2.—Indiana has sent many physicians and some capable surgeons to the army. Most of them have dropped large practices in order to do their part in the world war. In time they will be transferred to the medical department, but many of them will not receive commissions. Under the new plan, however, women physicians, too, has supplied many commissioned officers in the medical department. The record in permitting women physicians to volunteer will bring a response from the Hoosier state.

An order issued by Brigadier-General W. H. Sage, commanding the 28th division, will interest Indiana doctors. The order contains a schedule of instructions and commands that all officers and enlisted men will co-ordinate with the training prescribed for the respective organizations. They must drill in close order formation, and know all about the manual of arms.

Outdoor Exercise Required.

In addition to their routine duties the doctors are required to devote four hours a day to outdoor exercise. On Saturday of each week the surgeons of each organization will submit to the division surgeon a schedule of the day's work. The surgeons will be held responsible for carrying out the programs submitted.

The arduous work of removing of patients in trench warfare by hand, according to the order, makes considerable physical preparation. At least thirty minutes daily will be devoted to drill in the one-man method of transporting patients. Surgeons to whom animals have been assigned will be held responsible for their proper care. Night exercise also will be conducted. For the regimental and battalion detachments this will consist of the establishment of first aid stations, and the removal of patients from the front lines during the month will be executed under cover of darkness, with the troops remaining in bivouac until daylight.

School for Medical Officers.

Camp Shelby has a medical officers' school, in reality a school for medical officers. The order of General Sage commands that in addition to the work of the medical department, the medical officers' school shall be conducted as usual.

Colonel Robert M. Blanchard, the division surgeon, is having a survey made of this country. He is sending every one of them a woman, to the village near Camp Shelby, where the tests for malaria germs are made. In one village six miles from Camp Shelby the woman expert found that 30 per cent of the population carried malaria germs. A certain kind of mosquito bites one of these people and then stings a soldier, transmitting the disease to the soldier. Colonel Blanchard's task is to eradicate the mosquitoes and their breeding places. These are busy times for the officers and men from Indiana, the 15th Infantry, and the 152d Infantry. In addition to their extensive training schedules they are entertaining about seventy-five guests, who are members of the Mississippi Bankers' Association. The bankers are divided into squads under noncommissioned officers, who must see that the visitors have proper places to sleep and get to the right places to eat.

Making Good Records.

Captain Norman A. Nicolai, commanding Company A, 15th field signal battalion, is at Ft. Sill, Okla., taking instructions. Captain Nicolai may be detailed as government instructor. Supply Sergeant Russell White, supply company 152d Infantry, is making a fine record. Sergeant White is a Crawfordville boy and the son of State Senator White.

Assistant Chief of Staff.

By order of Brigadier-General W. H. Sage, Major Dwight N. Green, of Muncie, commanding the 2d battalion of the 152d Infantry, has been detailed as assistant chief of staff. He will be for the time being, assistant to Colonel James C. Owen, division chief of staff. Captain James D. Sory, Jr., commanding Company C, 15th Infantry, has been assigned to the headquarters staff and will report to the chief of staff. Company C is the Indianapolis company that was organized and commanded by Major Fred B. Johnson, now of the Judge Advocate-General's staff at Washington.

HOOSIER BOY SEES ACTION

Member of 150th Field Artillery Writes of Battle on Western Front.
(Special to The Indianapolis News.)
SHELBYVILLE, Ind., April 2.—That Battery E, of the 150th field artillery, has seen action on the western front in France, is told in a letter which Mr. and Mrs. John Mathes have received from their son Louis, a member of the battery.

The Letter was Censored, Two Pages Being Almost Cut Away.

The letter was censored, two pages being almost cut away. He says in part: "The front is very quiet today. Yesterday we took part in an awful battle. All day we heard nothing but the deafening roar of the great guns. At night the sky was lighted by the blinding flashes that came from the firing of the high explosives. It was our first offensive in France and I am glad to say that our first battle proved to be a winning victory for us. We were not made a close connection with the lines preceding, but began 'given medical aid and taken to the base hospital.' Continuing, he says: 'Telling it all in all that was a good day's work for our boys, and I wonder what the Kaiser will think when he hears about it.'"

Prompt Attention Given All Mail Orders

Yarns an Ever Interesting Question

There are the grays, navy and khaki for our army and navy boys' socks, sweaters, helmets and all the other articles they are needing.

Also Fleisher's 5-ply khaki and gray for extra heavy sweaters. Then there are the pastel shades for milady's sweater—pretty, soft shades of Jack rose, mauve, peacock, coral, reseda green, golf green, purple, cardinal, delft and Copenhagen blue: \$1 a hank.

Perhaps from the above you would like to knit a sweater, from the new model of Elas Barslaux's, which we are now showing.

Free instructions in knitting every day except Saturday—9:30 a. m. to 4:30 p. m.

—Art needlework dept., first floor.

Tomorrow, a Revelation of the Newest—the Smartest in

SPRING MILLINERY \$8.50, \$10 and \$12.50

These hats, depicting the latest of Fashion's fancies and guises, are perfectly delightful and fascinating.

Hundreds of hats, each chosen for some special type of woman.

Trim little toques, made with flowers; others with wings or smart quills.

Sailors and mushroom shapes, saucy tams and dashing Cavalier shapes.

THE POKE BONNET RETURNS—Simple, but smart as can be, are these quaint shapes that suggest pastoral beauties of grandmother's day—they're fashioned of wonderful straws in black and colors, in shapes with tall front and a brim that form a most becoming frame for the face.

A most remarkable collection at.....\$8.50, \$10.00 and \$12.50
—Millinery dept.—third floor.

Smart Neckwear

is an adjunct to one's wardrobe that should not be underestimated; a few decidedly new and novel effects are—

Sheer dainty organdie collar and cuff sets in all the new colors, and many unusual shapes. 48c to \$2.98.

Satin collars are in great favor and are shown in monk, round, square and roll effects. Plain materials as well as colors. 98c to \$2.98.

Stock collars are in great demand just now, and we are showing them in many smart, attractive combinations and colors. 48c to \$2.98.

Vestees in nearly every wanted material, some with tiny pockets, others have belted backs, striped and plain effects. Very chic and smart for wear with tailored suits. 98c to \$4.98.

—Neckwear dept.—first floor.

The question was whether the insurance was payable to the child or to the estate of the deceased.

There is Much Variety This Spring in The Suits at \$29.50

It's welcome—all the variety, from the tiniest pleats, the slightest flare of the coat, the pockets, the way the buttons are placed—all of these little distinctive touches make such a tremendous difference in the way a suit may look on a certain type or figure.

For women who dress well, but who do not care to pay a big price for their clothes, we have given special care and attention. And our suits at

Twenty-Nine Fifty

offer such tailoring and lines as is usually found in the more expensive garments. They are fashioned of such materials as serges, gabardines, poplins, checked effect, tweeds, in belted and tailored models—all the season's favored colors. Plenty of navy blue.
